# Umpire's Corner

## Question (XCIX)

A non-toucher (e.g. a drive that misses) in its original course rebounds from the face of the bank and collides with, and moves, a bowl at rest on the green. What action should be taken?

### Answer

The non-toucher should be removed from the green because it is a dead bowl, and the bowl which was at rest on the green should be put back to its former position by an opponent or the marker. (Law 37.5.3)

## Question (C)

Describe the correct position for players when at the head end of the rink.

Final answer next week
