Club Uniforms

A reminder to those members who have **moved** from a **Full** member to a **Non-Playing** member:

Please **return** your **jackets** to the club.

Also if you have a **club shirt** that is still in **good condition** could you please return that as well. At the moment it's looking as though **future members** may have **to pay** for shirts and this will give them the option to buy a new one or use a recycled one.

If you **include a note** with your **name** with the items that would be very helpful.

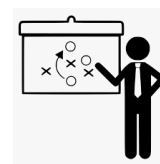

Many thanks from **Millie Knox**

Bowls Tactics

Minimising the risk when driving

Too often driving at the head is **left too late**.

If the head is **not developing** well the **2nd** needs to be **through the head** by a couple of metres or the **3rd** should be **driving**. Leaving it for the skip can be **dangerous** as there's **little opportunity** to **recover** if the drive turns sour.

Sometimes the game situation **forces a skip to drive** when they have **only 1 bowl** on the **head**. Let's say you are 3 down on the card, 3 down on the head and there's only 2 more ends to play. The **skip needs** to drive to **reduce the count** or **kill the end** without moving their own bowl. This is where **understanding** how much you bowl **moves** at **different speeds** is important.

You can:

- **aim** directly at your **own bowl** in the knowledge that the bowl is **moving away** from it on the way to the target or
- use **short bowls** around the head to **protect** access to **your bowl**.

The Tactics column is **taking a break**. Many thanks to **Pat Bonham** for all the tips.

Any news, bowls equipment to buy or sell, stories, notices?
